

UNITED STATES OF AMERICA -- Shut Down Alligator Alcatraz

Dear Governor DeSantis:

The Everglades Detention Center, known as "Alligator Alcatraz" is a total affront to human rights, human dignity, and is a human rights disaster. It remains unclear whose custody the individuals inside are in. Neither the Trump Administration nor Governor DeSantis can avoid accountability for the human rights violations happening inside.

This facility is inhumane, cruel, irresponsible, and life-threatening to those inside and the Everglades delicate ecosystem.

We the undersigned demand you take immediate action to:

- Close this facility
- Ensure that the individuals detained inside are released back into their communities
- End the criminalization of immigrants and people seeking safety; and end participation in President Trump's mass incarceration and deportation machine.
